**GO!** - GOGO Music Compilation - selected and mixed by Ralf GUM

**GOGO Music** is renowned for the soulful, song-orientated side of underground house music keeping with the tradition set by legendary US house producers. The label creates its own definition of club music - a timeless and uncompromising style, which encompasses harmony, soul and groove. It is therefore no surprise that the global house-scene has come to recognise GOGO Music as a source of quality house music. Just one look at all the various House music charts around the globe will show GOGO Music tracks right up there with all the best labels. Having now released a dozen singles, the German label is ready to present its philosophy of music with a CD compilation and an accompanying club tour.

**Ralf GUM** is the founder and the driving force behind GOGO Music. DJ-ing since 1990 he now enjoys a high DJ profile and is also recognised as one of Germany's finest house producers. His music is distinctive and creates a vibe that makes the listener lose himselves in the deep world of house music. The Hallmark of Ralf's sound is his use of live instrumentation and funky harmonies coupled with wicked underground beats and crisp percussion. But the distinctive groove isn't the only reason for Ralf's success – his passion and love for all things Soulful shines through in each and every production and helps create a simply irresistible groove each and every time he emerges from the studio.

The foundation of his label, GOGO Music in 2001, enabled Ralf to take the next step in spreading his soulful vibe around the globe. GOGO's mission is to be a platform to creative and innovative club music. The main focus will always stay true to the US-house-sound, especially classical garage, but the repertoire of the label also embraces latino, African inspired music, broken-beats & fusion. GOGO releases so far have centred around Ralf's productions with some notable exceptions - Michael Procter, Inaya Day, Dawn Tallman, Seek and the fascinating Concha Buika, have all contributed to the GOGO sound. The label works only projects that it is passionate about and is very careful that the quality control is kept to a maximum standard. Whether the artist is well known or whether they are up and coming makes no difference, the declared intention is to release simply good music.

This philosophy is obviously working as over the last few years, GOGO & Ralf GUM related releases have been well received by a global audience. Further proof can be found in the consistent UK Hype chart entries and continued support of GOGO Music releases from such DJ's as Tony Humphries, Frankie Knuckles, Brian Tappert, Rainer Trüby & Ian Pooley.

**GO!** now unites eleven highlights and two so far unreleased songs in a harmonious mix. First class House with depth – lively songs produced with love for details and soul.

*...enjoy enchanting house music...*
